

ACCESSIBLE LOCHABER

A guide to Lochaber

PRODUCED BY LOCHABER DISABILITY ACCESS PANEL

The first edition of *Accessible Lochaber* was published in 2002 following several years of survey work by fieldworkers and volunteers from the Access Panel. This was a substantial and thoroughly researched body of work and it has formed the basis for this updated, enlarged and revised 2007 version. The original edition is now out of print. This revised edition benefits from five years of user feedback and has a re-arranged and more user-friendly layout, it embraces modern technology by including websites where available, and has been expanded to take in the Small Isles and Knoydart.

The re-survey and text-updating work, undertaken by Kath Johnston and Edythe Knowles, has taken 14 months to produce and, as it will be stored electronically and be available on the web, should be relatively easy to keep up to date. Residents and visitors to any particular part of Lochaber need only download the pages from the Guide that refer to that particular area.

The information in the Guide should be read in conjunction with Visit Scotland's accommodation guides. We have tried to ensure that the information is correct and up to date (May 2007) but we would be grateful to hear from you if you find any errors or omissions. It is also advisable to check with the particular establishment.

Again, Chris Ingham has produced the symbols, which we hope do not need any explanation. Dr Su Sen and Hugh Muir, my predecessors as chairmen of the Panel, provided the wisdom, inspiration and support to update and revise the Guide. This is greatly appreciated.

The last five years have seen much enlightenment and a growing awareness about the needs of disabled people in our strides towards our aim of creating an equal world. Long may it continue. I hope you find this guide a small but useful step in achieving this aim.

Ken Johnston
Chairman.

It gives me great pleasure to introduce this revised Access Guide to Lochaber. As someone who has difficulty accessing certain places and buildings, I know how important it is for people to be aware of likely problems that they may encounter so that they can be confident of overcoming them if that is possible and if it is not, to make alternative arrangements.

We all know the attractions of Lochaber with its unsurpassed scenery and wonderful highland hospitality. It is a place where visitors can find peace of mind and where a huge variety of attractions are available. Whilst most people who come to Lochaber are hale and hearty, it is important not to forget that those who have a disability should also be able to enjoy as many of those attractions as possible.

After the success of the first guide this new updated and enlarged version provides additional information to assist disabled people living in Lochaber and others to plan and enjoy a visit to Lochaber. It is very encouraging to see how many places are currently accessible to wheelchair users and I am sure that more will follow. The publication of this Guide will mean that Lochaber will be seen not only as a beautiful place for a holiday but also as one that cares for those who are less fortunate than others.

CORPACH

Corpach grew around the sea lock of the Caledonian Canal and was a small village until the 1960s when it expended rapidly to house the employees of the Pulp & Paper Mill. It is now largely a suburb of Fort William and contains a small shopping centre, school, railway station and hotel.

KINLOCHLEVEN

Kinlochleven lies at the head of Loch Leven amongst the impressive Mamore mountain range. Despite that, its hotels, shops and visitor attractions are on level ground and generally accessible. The village grew on the strength of an early and pioneering, aluminium smelter which closed in 1999 after over 90 years of production. The village lies on the West Highland Way and is generally establishing itself as a popular tourist destination and hill walking centre.

FORT AUGUSTUS

Bustling Victorian village at the end of Loch Ness. Originally a 17th century fort on General Wade's road, the fort was gifted to the Benedictine Monks in 1875 and a huge abbey built on the site. Lying astride the A82 trunk road and the Caledonian Canal, the village is now a major tourist centre and servicing centre for the wider countryside.

ROAD TO THE ISLES

ARISAIG & LOCHAILORT

Arisaig, about 10 miles south of Mallaig, is arguably the prettiest village in Lochaber with its magnificent outlook over the sound to the Small Isles. It is an important local centre serving its rural communities and is also a summer ferry point for Small Isles. Lochailort lies at the head of Loch Ailort and in recent years, has become established as a major salmon farming centre. It contains a hotel, post office, railway station and is the northern gateway to Ardnamurchan and Moidart from the A830.

GLENFINNAN & KINLOCHEIL

Glenfinnan is a small scattered village at the head of Loch Shiel, best known as the place where Bonnie Prince Charlie raised the standard in 1745. Recently, its railway viaduct has become much visited by Harry potter fans. Kinlocheil is a crofting township about 8 miles east of Glenfinnan on the A830

MALLAIG, MORAR and KNOYDART

Mallaig is a large fishing village overlooking the Sound of Sleat. It is a major railhead and ferry point for Skye and the Small Isles and Knoydart and contains a large range of services. Due to its topography, parts of Mallaig are not disabled friendly, the Davies Brae shops being an example, but the shops and restaurant on Station Road are all wheelchair accessible and welcoming. Morar lies about 3 miles from Mallaig, sitting astride the romantic west highland railway and the famous Road to the Isles, on the striking western coastline with its famous white sands. It is an important tourist centre and a gateway to Loch Morar, Britain's deepest loch. It contains a hotel, petrol station and local craft shops. Knoydart is a remote and mountainous peninsula accessible only by boat from Mallaig. Its principal village is Inverie which contains a pub/restaurant, school, shop and ferry terminal.

THE SMALL ISLES

The islands of Eigg, Rum, Muck and Canna collectively amount to The Small Isles, served by Calmac ferry from Mallaig. The ferry is disabled friendly and all four islands have suitable piers for wheelchair users. In general terms, disabled persons would require a level of assistance to visit and enjoy the islands, although Eigg has a good public road linking Galmisdale to Cleadale and most of its amenities have disabled access.

CHURCHES

	Location	Parking	Access	Toilets	Opening Times/Other Information
